Attn.: Whom it may concern

Subject: ENMAX CPRS Reference Letter

Dear Sir/Madam:

Enmax Technology (Shanghai) Company, Ltd, based in Waigaoqiao Free Trade Zone, Shanghai, is the supplier of ENMAX CPRS to **Brunei Shell Co. Sdn. Bhd.** for years via our company **Joffren Omar Co Sdn Bhd** and installed by our Joffren Omar JO-1 Hoist operation.

Enmax Corrosion Prevention and Removal System (CPRS) has a complete series of CPRS units comprised of dissimilar metals for the prevention and removal of scale, paraffin, asphaltene deposits and rust in oil and gas production and any heat water systems.

Brunei Shell started to purchase CPRS units, via Joffren Omar being the local agent, from Enmax Technology (shanghai) Company, Ltd. since 2005 for control of paraffin, scale and corrosion in Brunei Shell oil production, and we believe all units have been working well with fully functioning as per specification and expected performance.

Further details and references you may contact Brunei Shell Senior Hoist Operation Engineer, Mr. Mohd Esa Hanifah TWC/422. (Email: Mohd-Esa.Hanifah@Shell.com)

Sincerely yours,

For **Joffren Omar Co. Sdn Bhd**

Roy Wong Z.C
